Book Cover

13th. Thanks!

Tom Poland is the world's #1 authority on creating controllable, predictable and profitable revenue growth using his proprietary Command & Control Center® approach.

Tom is a 38 year old serial entrepreneur who started his first business at age 20 and has gone on to start and sell four others, taking two of them international.

In that time he's managed teams of over 100 people and annual revenue of more than 20 million.

As fast as Tom's unique and proprietary methodology has helped well over 2,000 business owners globally across 15 different industries to identify and grow their businesses, many have gone on to add millions to their wallets and some of their testimonials are available in the last part of this book or on his website.

Here's what you'll discover in this leading edge and revolutionary book:

- Tom's unique and proprietary One Based™ Planning Method the business owners needs to achieve big goals through small steps.
- How to systematically and predictably create a flow of high quality new client enquiries into your business.
- How to create a business model that generates more cash in less time and frees up five days of your valuable time every week.
- Eight substantiated reasons why traditional management and planning methodologies simply tend to fail to deliver results for business owners (and what to do about it).

Tom Poland The World's #1 Authority on Creating Controllable, Predictable and Profitable Revenue Growth! Using the Proprietary Command & Control Center® Approach
